

## MACLEOD'S FIRST RURAL SCHOOL VEGETABLE FAIR

Visitors to the Town Hall Macleod on Saturday last were amazed on entering the Hall to see the most magnificent display of vegetables ever gathered together in the town and district of Macleod. Where did they come from? How did they grow under such climatic conditions as the Macleod district passed through this spring and summer, were the questions asked on every hand. The answer is, the girls and boys fought and won the battle over Dame Nature by garraging pailfuls and bucketfuls of water, thus supplying the needed moisture to bring their carefully tended plants to maturity. If such wonderful success attends the labors of the girls and boys under such conditions, what, we are led to ask, would be the result under normal conditions, or under irrigation. The fact was demonstrated, without the shadow of a doubt on Saturday, that the soil of the Macleod district, given sufficient moisture, will produce vegetables, pumpkins, squash, watermelons, citrons and such like second to none in Alberta.

The entries came from a very wide area, 16 rural schools being represented, Spring point and Daly Creek on the west, Stand Off and Ardenville on the south, Longbottom on the east, Rocky Coulee and Rose Lawn on the north. There were over 40 entries each of potatoes, cabbage, beets, carrots and turnips and the judges were up against a serious problem to decide which were the best in such a large entry of such excellent quality. There was also a very large entry for the best special prizes offered for 1 lb. of wheat and 1 lb. of oats, and the judges had some difficulty in selecting the three best samples in each variety.

Professor Hooper, principal of the Clareholm Agricultural School, was the judge, assisted by Mr. Robert B. McNab, Macleod. Miss Alley, teacher of domestic science in the Agricultural School, also came down, expecting to judge the cooking and domestic products, but as these classes were shown at the August fair her services were not required in that line, but she gave able assistance by acting as recorder, and also by giving timely suggestions on the qualities of some of the exhibits. After the judging was completed about 2 o'clock the doors were thrown open and a big rush into the hall was made by the young exhibitors to find out the result of their spring and summer labors. It was certainly an interesting and delightful scene to watch the beaming faces of the youngsters as they rushed from table to table and saw their names written on the ticket. There were very few disappointed as nearly every child got a prize for something.

The official opening took place about 3 o'clock when Mr. H. Mackintosh, president of the Agricultural Society presided. In the opening remarks he stated that it was a great honor for a girl or boy to win a prize from such a large number of entries, and it was certainly no dishonor to lose, and he hoped that the losers would be good sports, taking their losses in the right spirit by profiting from their experience and determining to win next year.

The chairman then introduced Mayor Fawcett who had kindly consented to open the fair. Mayor Fawcett in addressing the children and parents, said:

Ladies and gentlemen, an dnot least, boys and girls, exhibitors: "On behalf of the Town of Macleod I welcome you this afternoon; I congratulate you on the splendid showing. This is a great pleasure to me, and I am honored to be given the privilege of officially opening this, the first school fair in the town. May this lead to much larger things."

"I congratulate the Department of Agriculture on this movement, whereby the boys and girls and through them the older folk, are being interested in agriculture one of the grandest of callings and the oldest. It is well that our government should interest the farm boys and girls in such ways as these."

"I am hoping that this boys and girls fair may be a grand success. This display assures on that in one sense its success is already assured, but I am wishing for a greater success than one can see and admire. I trust that with a better understanding of the growth and development of the plant life may come truer appreciation of farm life by the boys and girls."

"I want the boys and girls to like the farm, to be happy there and to stay there for from the farm have come our greatest and best men and women."

"I say be happy there, and I repeat that I am glad the Department have taken an interest in this way. However, I take this opportunity to say that a far deeper interest in farming must be taken by the Department. Our government must have a far more sympathetic understanding of farm life and difficulties and legislate to make farming life pleasant and profitable if it wishes to secure to the basic industry of Canada the stability it so urgently needs."

"Let me say to the children I am proud of your exhibits, interested in

## MACLEOD PIONEER DIES AS RESULT OF AN OPERATION

Sergeant Joseph Marlow Shaver died at Banff early yesterday morning following an operation for kidney trouble. The deceased was a member of the R.C.M. Police. Sergeant Shaver joined the R.N.W.M. Police at Regina in 1888, and was later stationed at Duckworth, Sask., and came to Macleod about 1895, having continuously resided here for the past twenty-five years.

Sergeant Shaver was a highly respected member of this community, was a loving husband and a kind father. He is mourned by his wife and daughter, Miss Lotta, and a wide circle of friends and acquaintances in Macleod and district.

your success. Be sports, if you lose do so like a true sport. The judges may make mistakes, all do sometimes, but remember the joy is in doing, in accomplishing something, not just in beating the other fellow. I wish you Fair every success."

Professor Hooper then gave a short interesting, and instructive address to the girls and boys. He complimented them very highly on the splendid display they had made, an spoke of the amount of labor they must have expended in getting the various vegetables to such a high state of maturity. He spoke of the objects of school fairs and the great success attending them in various places, and said that for a first effort at a school fair in Macleod, the display was magnificent in fact marvelous under the condition prevailing this year, and was an eye opener to him to find that the Macleod district could produce such a variety of excellent vegetables.

Professor Hooper then spoke of the Agricultural School at Clareholm, pointing out to the girls and boys also to their parents, the great benefits to be derived from the courses at the school, urging the fact that more and more in the years to come will it be necessary for the farmer to have a practical and scientific knowledge of his farm if he is to make it a success. The days of slipshod farming is past, the prosperous and successful farmer of the future will be the man who knows his soil and knows his stock, and how to take and make the best of them.

The distribution of the prizes took place at 9:30 when Mrs. Fawcett, in a very pleasing manner, handed the cheques to the successful prize winners. It was decided not to hand out the ribbons as on account of the very large number of entries in some of the sections, ten prizes were awarded and the Society had only provided ribbons for six. The secretary will mail all the ribbons as soon as the complete number has been secured.

The secretary informs us that the attendance of visitors was very disappointing. Such an exhibition should have had the hearty support of every farmer who could possibly come in, and also the people of the town, to encourage the children in their splendid work.

The following is the list of prize winners.

## MACLEOD PIONEER PASSES AWAY AT KINISTINO, SASK.

"Kinistino received a sad blow Wednesday afternoon of this week when news was phoned to town that Mr. Chas. Craig had expired suddenly. In the morning he had been attending to his duties as usual at the post office and jollyng each one as he spoke to. Later in the day Mr. Craig went out to his son's farm, and very soon afterwards was seen to fall. Dr. Stuart was called but life was extinct. Mr. Craig was 64 years old. The funeral will take place at 3 o'clock today from the home.

Besides a devoted wife, he leaves two daughters and two sons to mourn his loss. He was a devoted husband and a kind and indulgent father, and to his friends, the soul of fellowship. But the greatest of all—he was a man. And as a man it is that those who knew him best most love to contemplate him."

Chas. Craig was a Macleod pioneer, coming here in 1882 from Ottawa. He was manager of the Anglo-Canadian Ranch Co. in the early days. Later he homesteaded at Stand Off. Later again he engaged in the dairy business in Macleod till 1897 when he disposed of his interests here to return East. In 1900 he came west again to Kinistino, Sask., where he farmed for some time. He was postmaster at Kinistino at the time of his death.

Mr. Craig died from heart disease at the age of sixty-four years.

The deceased is mourned by two sons, William and Archie, who live at Kinistino; Mrs. H. Featherstone, a daughter in the same place, and Mrs. James Story, another daughter, living south of Macleod. Allenfields.

## ALBERTA MUNICIPAL HAIL BOARD MEET IN CALGARY

CALGARY, Sept. 16.—The reports presented to the board at their regular meeting on the 15th and 16th for the purpose of fixing the premium rate for this year shows that the Municipal Hail Insurance plan has had another good year and satisfactory increases are registered in every department.

In 1919 the total area insured throughout the season, within the hail insurance district, was about 1,600,000 acres. This year over two million acres was insured in the same area. Last year the acreage insured outside the hail insurance district was about 100,000 acres. This year it was 281,286 acres. Last year the maximum indemnity was \$8.00 per acre. This year the maximum was raised to \$10.00 per acre and over eighty per cent. of the insurance was written at the maximum amount. Last year the total amount of insurance carried was about \$13,300,000.00. This year the total insurance carried was over \$21,000,000.00, an increase of over sixty per cent.

The total number of claims this year is practically the same as last year, a little over two thousand, but on account of the higher indemnity and because the storms were more severe this year the total awards are about \$850,000 as compared with \$504,000 last year. One storm on July 26th entailed a loss of about \$300,000. All the claims of the year have been adjusted except five that came in this morning from a storm on September 9th north of Edmonton.

The premium rate was fixed by the Board at 6¢. This will be 3¢ cents an acre where the crop was insured for \$6.00, 4¢ cents an acre where the insurance was at \$8.00 and 6¢ cents an acre where insured at \$10.00 per acre. This premium will pay the losses, the costs of administration, and will enable the Board to set aside a substantial sum on their reserve, to be added to the \$100,000 set aside last year and which is now invested in Provincial Bonds. In spite of the fact that wages and salaries have increased, that the cost of printing and of office supplies is much higher than last year, and the expenses of adjustments are considerable greater, the rate remains the same as last year which the Board believes marked a very satisfactory showing.

The members of the board present were: E. H. Malcolm, Chairman; Bobb Gardner, Excel; A. S. Hawley Kilham; Wm. Galloway, Keoma; Ed. Hingley, Ponoka; H. W. Bright, Macleod; Harry Bell, Edmonton.

It was decided to hold a special meeting of the representatives of the Hail Insurance District to be held in Calgary at the same time and place that the annual convention of the Rural Municipalities which is expected to be somewhere about November 25th. This special meeting will be for the purpose of considering amendments of the Hail Insurance Act to be presented at the coming session of the legislature.

## TOWN COUNCIL IN REGULAR SESSION MONDAY SEPT. 20

C. A. Muroch, Macleod; Mrs. Sarah Stuttaford, Victoria; B. C.; Dr. Steele, Stand Off; C. H. Webber, Edmonton.

## NEW SURVEY ADDS TO AREA OF S. M. IRRIGATION PROJECT

It is given out on good authority that a new survey has demonstrated that water for the South Macleod Irrigation project can be carried much farther to the eastward than was at first supposed. The new area will extend about seven miles farther to the east, taking in the Longbottom district in th territory between the Old Man and Belly rivers and extending down nearly to their junction.

The first boundary of the project was: On the north, boundary line between townships 9 and 10 in Pearce neighborhood; on the south, Belly and Kootenay rivers; on the west at a point about seven miles west of Eveline post office; on the east, range line running north and south a half mile from Orton. The new area will extend about seven miles eastward again.

The taking in of this area will involve a delay of a week or two to organize new territory and canvass for petition, but the promoters of the project believe this delay negligible and that it will be better to bring the whole territory in on one vote rather than to make two bites of the cherry.

## MEN WANTED AT MCLAREN L'B.R. CO'S. MILL, MACLEOD

The regular monthly meeting of the Ladies' Hospital Aid will be held in the Methodist Hall on Tuesday, Sept. 28, at 4 p.m. Important business—representative attendance requested. 29-11

## WHAT SASKATOON THINKS OF "COME ALONG MARY"

A girl and music comedy, running through it the semblance of a plot that carries the imagination of the audience from Silver Rock, Long Island, to a moonlight beach at Honolulu, a show played before the public for its approval and enjoyment under the title of "Come Along Mary," opened a three days engagement at the Empire theatre last night before a crowded house.

"Crowded" barely expresses the number of patrons who attended. Last night was "Kiwanis" night at the Empire and members of the club and their wives and friends were out en masse. Late comers did not have a choice of seats. The Kiwanians added whatever pep was needed to make it an ideal evening when they rendered "Sweetie" between acts, for the edification of those who were strangers to their club curriculum.

There are many bright spots in "Come Along Mary." A dozen sprightly girls, who for one thing possess the charm of youth, and two comedians, Professor Ichabod Simmons, and Rufus M. Washington, his ebony skinned assistant, have the knack of arousing their audience to spasms of merriment.

"Come Along Mary," will be at the Empire tonight and tomorrow, with a Wednesday matinee. It is the best musical comedy which has visited the Empire in many moons, and is a good commencement for the autumn season. At the Empire next Wednesday night.

Commencing October 3rd a new train service will commence between Macleod and Calgary, running every day except Sunday.

## HEAVY LOSS TO THE WESTERN FARMERS

H. W. Wood, president of the United Farmers of Alberta, is authority for the statement that the farmers in western Canada are losing more by the abolition of the Canada Wheat Board than enough to make up for the added freights caused by the increase in the railway rates. He proceeds to estimate the loss to the western farmers by the increase in freight rates at something like \$40,000,000 annually, which is an enormous amount of money.

The saving by the Canada Wheat Board will more than make up for this vast amount, which has to come out of the western farmer. This estimate is made by a man who knows the inside of the wheat board because he was a member of that body. He is a practical farmer. His statement is an astounding one. In simpler form it means that the farmers of western Canada are losing more than \$40,000,000 because the government is unwise enough for no very good reason to abandon the wheat board.

This is a serious condition of affairs, and one which should receive the utmost consideration by the people interested.—Morning Albertan.

Mr. J. Marks of the local Hudson's Bay was in Calgary on business, returning to Macleod Wednesday evening.

Miss Reid, daughter of J. W. Reid, who is attending school in Calgary, returned to Calgary Monday morning.

A foolhardy coyote ventured into the town limits on Sunday evening last and was immediately shot by a local nimrod.

Chief engineer Muckleston, of the Lethbridge Northern Irrigation project, was a business visitor to Macleod on Saturday last.

Mr. Billy Glass, formerly of Macleod, was seen in attendance at the sales of horses held in Calgary Wednesday of this week.

Mrs. Little and family, and Mrs. Walker, motored to Claresholm on Sunday and spent the day with Mr. and Mrs. Rhodes, returning at night.

Misses Walshe and McNab, who were in Macleod for the week end, returned to Claresholm on Monday morning, where they are teaching school.

Any farmer who lives around Macleod and hasn't become entirely discouraged yet, will be if they take a trip up around Claresholm and see the fine crops in evidence in that district.

Willard Bowen, of the Merchant's Bank staff at Nobleford, has been spending a few days at his home at Spring Point. He left Saturday morning for Hughenden by motor, to where he has recently been transferred.

C. H. Webber, auctioneer of Edmonton, accompanied by Mrs. Webber, motored through Macleod on Monday last. In speaking to a Times representative Mr. Webber states that crop conditions in the vicinity of the capital city are excellent.

Miss Charlotte McLean left last Monday to attend the Westminster Ladies' College, South Edmonton, Mrs. T. S. McLean accompanied her

to Calgary and returned to Macleod Tuesday night. While in Calgary Mrs. McLean was the guest of Mr. and Mrs. R. Cottam, who recently moved to that city from Macleod.

The secretary of the Agricultural Society informs us that the special prize of silver spoons offered by Mr. J. T. Doney, was omitted from the list of awards. The prize was won by Mrs. Doney, but Mr. Doney presented a gold mounted fountain pen to Miss McHattie, who was second on the list.

A meeting will be held in the Presbyterian church on Tuesday, Sept. 28th, at 4 p.m. Mrs. O. C. Edwards will give an address on some of the resolutions passed at the annual meeting of the National Council of Women held at St. John, N.B., last June. All women interested are invited to be present.

## PAPER PRICES IN NEW YORK

Kingston Standard.—The difficulties in running newspapers are by no means confined to Canada, and the public here should take notice of the fact that the prices of paper in New York have gone up, while it is reported that a further increase is not at all unlikely owing to the increasing costs of wages and materials. Nearly all the evening papers in that city have sent up their prices, and the Morning Telegraph has increased its price from 5 to 10 cents a copy. The Wall Street Journal now costs 7 instead of 5 cents. There does not seem to be any chance of wages and materials decreasing in cost in Canada, and it may be that the example of the New York papers will have to be followed.—Family Herald.

## REACH & CO.

Now threshing is on the way with the farmers' wives and daughters having a strenuous time cooking for the hungry men, it is then very hard on a woman. After it is over she has to be paid with gratitude and thanks, and then more, her first demand should be a pair of shoes, a nice blouse or waist, also not forgetting a pair of silk hose. Silk has assumed the ascendancy over cotton underwear. It is cheaper in the long run as a woman takes care of it. What is more attractive on a girl or woman than a nice fitting silk stocking. She can shout defiance to the wind, the breezes can take liberty with her dress and skirt, but the devil a bit she cares if the windy zephyrs are too rude and boisterous, there is yet more silk to be shown in out-of-the-way places. She knows she is a vision for the gods. We have, therefore, with our usual foresight, silk hosiery, voile, gloves, silk and crepe, which, to make room for fresh stock, we will sell at 20% off. Speaking about hosiery, you should see our special Navy Blue Silk stockings, the quality and shade are very fetching. It is a peach of a looker on a pretty leg. A lady seeking admission in the most exclusive clubs for men in the States or British Isles would be accepted immediately, and no chance of being blackballed. There is a secret in the longevity of a stocking by the way you put it on and the way it is fastened to the garter clasp. We have a book with illustrated descriptions of the proper way to put it on.

### BEAVER CREEK NOTES

R. G. McLean was in Calgary on business Wednesday.

Cecil Jackson is working for Harry Marshall on his outfit.

Miss M. Brown was in Pincher Creek one day last week.

It is rumored that Bobbie Walker is returning to the district.

R. G. McLean motored to Pincher Creek on business last Wednesday.

Mr. Howard Bowen is the possessor of a new Baby Grand Chevrolet.

Cutting is practically finished in this district and some fine yields are anticipated.

Miss Lena McLean was recently a visitor at R. G. McLean's ranch here for a few days.

It is reported that Mr. Wm. Dunbar and family are moving to Macleod for the winter.

Mr. W. Bowen has left for the north after a couple of weeks visit with his brother, H. Bowen.

Messrs. Marshall and Stewart are busy getting their threshing machine in readiness for the season's run.

Roy Bratton and Orval Haptonstall, who have been helping Mr. Brown on the North Fork have also returned.

Several of the young men of the district have left with their teams to work on threshing outfits in the Claresholm district.

Mr. and Mrs. T. M. Brown returned from their ranch on North Fork on Saturday, having finished farming operations up there.

Miss M. Brown of Spring Point has returned to her home on Beaver Creek after several days visit to their ranch on North Fork.

The telephone line is nearly completed except for a short section or two of wire. It is hoped the call boxes will be installed soon.

Harry Marshall has pulled his outfit down to Summerview. He is expecting a month's threshing before returning to this district.

Mrs. F. C. Stone, of Spring Point, who resided in Macleod for a number of years, has returned after a visit in England which extended over several months.

All the grain in the district is cut and several are busy stacking. This is necessary as there is only one threshing machine and it will be some time before it returns.

A few young people from this district attended the dance at Ashvale school last Friday night, a very enjoyable time was spent. Mr. Hubert Stone officiated at the organ and Mr. V. Hammond assisted on the violin. Various others assisted in the music among them being Miss Montefield, Mr. Lamond. The articles in the culinary line were very delicious. Come again.

### ACTOR MINUS ARTISTIC TEMPERAMENT

Stocker, a tiny black Pomeranian no larger than an ordinary house cat is perhaps the most faithful admirer Pauline Frederick has ever had. And what is more, he has appeared in every one of her productions, and plays a prominent part in "The Fear Woman," the vivid stars newest Goldwyn picture, which comes to the Empress theatre Friday and Saturday.

Stocker started his career with Miss Frederick when she was on the New York stage and he was a tiny puppy. He never leaves his mistress, and while she is at work, he either sleeps on her cloak or in some of the "prop" furniture. And while he is only ten inches in height, he is a valiant protector.

I "The Fear Woman" Stocker is perhaps the best foil in the play for Miss Frederick, some of whose finest emotional work is done as she holds him in her arms. He started with her before the camera several seasons ago, and has played almost continuously with her ever since. When she does not require his services he is loaned to other companies at the Goldwyn studios, and has to date appeared with Mae Marsh in "The Cinderella Man," Madge Kennedy in "Daughter of Mine" and Tom Moore in "Lord and Lady Algy."

Stocker has a personality all his own. When a stranger approaches he is alert, and if his noise forewarns him, he bristles after the fashion of an enraged porcupine. On the other hand, if he takes a liking to a person he is unusually affectionate, and parts his lips in a broad smile.

Without her little Pom Miss Frederick would be lost, she says and she is usually solicitous about his welfare. When a studio cat bristled in front of him not long ago she ceased

an intense emotional scene in "The Fear Woman" to snatch Stocker away before he could find himself minus an orb, after which she insisted that the "baby," as she called him, be allowed to lie in her lap while she "did" the scene.

Asked why she is so fond of the little black puffball, the radiant star declared with her characteristic witicism:

"Stocker is more of a man than some men I have heard of, and beside, he is faithful, true actor, never suffering from temperamental nor indigestion, and always ready to register joy at seeing anyone whom he likes."

### AMALGAMATION OF JAPANESE LABOR

Japanese labor organizations have decided to unite in a single body similar to the American Federation of Labor. That is the best news Japan has told the world in a long time. When the workingmen of Japan become so insistent for their rights that they accept the organizing principle of the west an increase in the Japanese standard of living is inevitable.

One of the first acts of the Japanese Federation of Labor will be to try to prevent an influx of alien workers, willing to accept a lower grade of comfort and culture. That is to say, the Japanese workingmen are reaching the point where they can progress no further if Chinese coolie labor is allowed to take possession of Japanese labor markets.

Japanese capitalists will certainly try to exploit Chinese labor as demand for higher wages become more insistent. The Chinese will encourage this reactionary move. The lower labor type always tries to seize the markets smoother and made easy by the higher type. That is what was attempted on the Pacific coast of America. But the resistance of American organized labor has held the Japanese in their own country. And so it comes about that Japan's working class has been forced to begin fighting for its rights at home, instead of finding soft gifts in America.

Japan must teach Chinese labor that it cannot seize to itself the hard won successes that Japanese organized labor is preparing to win at home. When the Japanese Federation of Labor comes to grips with this problem, there will no longer be a Japanese labor question in America. For Japan will understand her own development demands endorsement of the American principle.—Morning Albertan.

## PORTRAYS HER HEROINE'S LIFE

Mary Miles Minter, who is being starred in "Anne of Green Gables," herself for many years an admirer of the L. M. Montgomery "Anne" stories, portrays Anne Shirley just as the author described her.

Anne Shirley, an orphan, is sent to "Green Gables," the home of Marilla and Matthew Cuthbert, a New England spinster and her farmer brother, in response to a request from them that a boy be sent. They accept Anne, who proves a mischievous girl whose pranks stir the villagers. She grows up and is graduated from the Academy with honors. Matthew's plan to send her to college is thwarted when he has financial reverses, resulting in his death. Anne obtains a position to teach, and with her meager earnings engages a specialist to operate on Marilla's eyes. Throughout the picture Anne has difficulties with a family named Pie. Her final triumph over them and the prospect of her marriage with a boyhood sweetheart close the picture.

This picture is showing at the Empress theatre on Monday and Tuesday.

Marion Davies, the beautiful young star who has recently been added to the Select pictures' attractive array, will be seen here on Thursday next week at the Empress theatre in her first Select production, "Cecilia of the Pink Roses," produced with marked finesse by Julius Steger from the novel of the same name by Katherine Haviland Taylor.

Cecilia (Marion Davies,) the lovely

## NAVIGABLE WATERS PROTECTION ACT

R.S.C. CHAPTER 115

Arthur G. Peuchen hereby gives notice that he has under Section 7 of the said act deposited with the Minister of Public Works at Ottawa, and in the office of the District Registrar of the Land Registry District of Calgary, Alberta, a description of the Site and the Plans of the proposed Dams and Booms to be constructed on the Old Man River for Log Storage in the North West Quarter of Section 11 and South West Quarter of Section 14, Township 9, Range 26 West 4th Meridian.

And take notice that after the expiration of one month from the date of the first publication of this notice Arthur G. Peuchen will, under Section 7 of the said Act, apply to the Minister of Public Works at his office in the city of Ottawa for the approval of the said Site and Plans and for Leave to construct the said Dams and Booms for Log Storage.

Dated at Macleod, Alberta, this 21st Day of August, 1920.

ARTHUR G. PEUCHEN,

Per. Harry Burns, Attorney.

young daughter of Jerry Madden, a brickmaker, is left at the head of the household by the death of her invalid mother (Willette Kershaw,) whose ambition, that she might be a lady and wear a bonnet "with pink roses on it" had never been realized. Jerry's fortunes take a turn through the success of his invention which has been patented by the kindly priest of the gas-house district who also persuades him to use some of his wealth in educating his little girl. Cecilia is placed in a fashionable board-school where her life is made miserable by the arrogant and unkind daughters of the idle rich who laugh at her crude inexperience.

Cecilia's accidental meeting with Harry Twombly, a cousin of one of her school-mates, the development of his friendship and love in spite of the obstacles which arise in the form of her own low birth, her brother's worthlessness and her father's lack of accord with his new luxury, is pictured in a series of charming and pathetic scenes.

This photo play, the first of a series of six in which the little star is to appear in Select Pictures, directed by Julius Steger, has been produced with the skill of a man whose entrance to the films was with a view to bringing to that field the craftsmanship and technical knowledge of artistry which this effort has so successfully demonstrated.

PERNIE, Sept. 21.—A. W. Bleasdel, one of Pernie's oldest inhabitants and business men, passed over the "Great Divide" this evening after a brief illness from acute pneumonia at the Pernie hospital.

Mr. Bleasdel was well known at Lethbridge and Macleod.

Alex. McDonald has again taken over the agency for Overland cars. The Baby Four, which he is demonstrating, is a beauty. If you are thinking of buying a car that looks good, rides easy, and the upkeep of which is the lowest of any car on the market, see this car before buying.

## NELLIE MCCLUNG ADDRESSES TWO REFERENDUM MEETS.

(Contributed. Published by request.)

Mrs. Nellie McClung, the celebrated Edmonton authoress who is devoting all her time to the Referendum campaign, addressed two meetings in Macleod on Saturday. In the afternoon there was a meeting for women in the Presbyterian church which was well attended, including a large number from the country. In an able address Mrs. McClung outlined the part that women could play in the campaign, and expressed the hope that every woman would not only vote herself but use her influence to get others to vote also.

In the evening the meeting was held in the Oddfellows Hall and was presided over by Mrs. E. F. Brown, and considering the counter attraction, it was well attended. In her usual brilliant style Mrs. McClung dealt with the whole situation as presented by the liquor traffic. She likened the struggle against the liquor traffic to the recent war by stating that the one thing that made the war so terrible was that the Germans made war against women and children and aged and feeble men. One, William Hohenzollern, had brought upon himself everlasting contempt because he had caused so many non-combatants to be slaughtered by machine guns and other means. Mrs. McClung said that it came of Irish stock and she had a certain appreciation of a straight fight between parties on equal terms, it might be agreed that there is some real sport in that, but there was no sport in fighting a defenseless crowd who had no "come-back." This was true of the liquor traffic, the greatest sufferers are always those who have no means of defending themselves against it. The speaker then went on to relate how that insurance companies, banking concerns and business enterprises, all stood in favor of prohibition, and now labor organizations are beginning to see the benefits accruing to the men who refuse liquor, so that all the great unions are out in favor of its banishment.

Mrs. McClung referred to arguments sometimes advanced that bootlegging is becoming worse and answered it by saying that in so far as the province of Alberta is concerned, the records show that in 1914, in the

days of the licensed bar, there were far more convictions for bootlegging and illicit selling of liquor than there

were last year. The traffic, said the speaker, will not submit to even the most reasonable regulations, it is

lawless and must be treated as an outlaw. At the close of the address, J. W.

Macdonald, K.C., moved a vote of thanks to the speaker. He said that he had listened with a good deal of pleasure to the address and realized that Mrs. McClung had presented her case in a very masterful manner, while at the same time recognizing the other fellows point of view, and was glad to listen to such an able presentation of the prohibition side of the question as had been presented to the audience that night.

Rev. T. D. Jones, of Lethbridge, also spoke of the work of the campaign committee in that city and said that he had every hope that Lethbridge would return a large favorable majority on October 25th.

CANADIAN  
SHOES FOR  
CANADIAN  
PEOPLE

## Canada—Why?

**Is it really worth while to develop institutions and industries which are distinctively Canadian, and which promote the welfare and prosperity of the Canadian people? Of course it is!**

**Are we wasting our time and energy in training Canadian ability and encouraging Canadian enterprise? Of course not!**

CANADA is more than an accident of geography.

The magnificent record of effort made by Canadians in the great European struggle bears witness that the peaceful and unhindered development of the Canadian ideal should be maintained.

The future of Canada depends upon the sincere and earnest self-expression of Canada's millions of workers—at the plough, the loom, the forge—in the factory, the office and the home. And loyalty to Canada is best expressed, not in bursts of patriotic emotion on state occasions, but in supporting and sustaining Canadian enterprise and Canadian industry.

Canada produces footwear of many desirable types, and of standard quality in all grades. Buy Made in Canada Footwear and you are then assured of the utmost that modern skill can produce in Comfort, Fit and Style.

for the Dominion of Canada (Methodist Church) at Toronto. This communication arrived too late for publication this week but will appear in the next issue of The Times.

Oscar Rosaine, six miles south of Macleod, while working with Wm. Portche's threshing rig on the Hobb's farm, was drawn into the tractor belt, his jumper being whipped around the belt, and only by the most strenuous efforts was he able to break clear. It was a narrow escape as shown by the fact that his clothing was torn off entirely from his waist up.

FAMOUS DETECTIVE  
SAYS BOMB CAUSED  
N. Y. EXPLOSION

NEW YORK, Sept. 17.—Wm. J. Flynn, chief of the bureau of investigation, department of justice, declared this afternoon he was positive that a bomb had caused the explosion in Wall Street yesterday, which took a toll of 38 lives, injured about 200 persons and caused property damage running into the millions.

"There is absolutely no doubt that it was a bomb," said Chief Flynn.

"An important development in the last two hours has convinced us of this. The bomb was apparently placed by a person who was within four blocks of Wall and Broad streets when the explosion occurred."

Certain at least of the cause of the explosion federal agents and city police increased their search for the driver of a wagon drawn by one horse which was blown to pieces. No trace of him has as yet been found.

The theory of the investigators is that a time bomb was placed on the wagon and that the driver hurried from the scene just after arranging for the explosion to occur at noon.—Lethbridge Herald.

QUALIFICATIONS RE  
REGISTRATION ARE  
SOMEWHAT DRASTIC

Many citizens who are applying for registration this week with a view of voting in the coming prohibition plebiscite, are disappointed when they find that they fail to fulfil the necessary qualifications with regard to residence. The regulations provide that a citizen must have resided in the electoral and polling district in which he votes for the full period of two months prior to April 29, 1920.

In the case of a voter who has moved to Calgary from an Alberta town, say six months ago, residential qualifications have not been fulfilled and he is disenfranchised unless he has previously resided and cast his vote there. If he has resided in a city registration district for two months prior to April 29, but has since then moved into another district, his case is the same, with the exception that he has only to go back to his former district and register, which, as it is in the city, does not work a hardship on him if he wished to vote.—Calgary Herald.

ALBERTA MERCHANTS  
TO BE PROSECUTED

CALGARY, Sept. 17.—It is stated by officials of the inland revenue department here that several cases of alleged fraud in connection with the luxury tax returns in Alberta are under investigation, and that prosecutions against certain Alberta merchants will be made shortly. Word was received here today that an accountant is being sent from Ottawa, to arrive in the course of a few days.—Lethbridge Herald.
